

airscreen 1000

1" ELECTRONIC AIR CLEANER

FEATURES & BENEFITS:

LOW PRESSURE DROP

means BIG SAVINGS in electrical, heating and cooling costs

UNIQUE "POP-UP" CORNERS

AFFORDABLY PRICED

with extremely low annual maintenance costs

HOW IT WORKS:

The Airscreen 1000 operates on the principle of bi-polarization. It creates a polarized charge on the media pads inside the filter. This safe and simple process turns the Airscreen 1000 into a giant magnet that captures airborne contaminants such as smoke, dust, bacteria, viruses, and mold.

POP-UP CORNERS MAKE MAINTENANCE A "SNAP"!

1" ELECTRONIC AIR CLEANER airscreen 1000

SPECIFICATIONS:

Pressure drop:.....0.18 in. w.c. @ 300 fpm
 Nominal input voltage:.....24 Vols. (floating)
 Input voltage range:.....18 V min to 30 V max
 Power consumption:.....< 1 watts
 Apparent power:.....allow .5 VA
 Recommended media change: every 3 months
 Media:..... Airscreen replacement media
 Warranty:.....5 years

STANDARD SIZES:

12X24 14X20 14X24 14X25 14X30 15X20 16X16 16X20 16X21 16X24 16X25 18X20 18X24 20X20 20X21 20X24 20X25 24X24 24X30 25X25
CUSTOM SIZES ALSO AVAILABLE

LOW PRESSURE DROP SAVES MONEY!

All filters restrict air flow. The degree of restriction is measured as "pressure drop" and will determine how long and how hard a fan motor will need to operate to achieve the desired heating or cooling level in your home. Therefore, selecting a low pressure drop filter will significantly reduce annual electrical, heating and cooling costs. Our 1" model Airscreen 1000 offers the lowest pressure drop among comparable 1" filters.

HIGH-TECH IN-HOUSE R&D FACILITIES

72' WIND TUNNEL

CLEAN ROOM

HANDY ANNUAL REPLACEMENT MEDIA PACK

Contains media for four changes (8 media pads). Excellent "add-on" sale to your regular maintenance program.

When placing an order, be sure to specify the dimensions and the model number of the air cleaner (1500 or 1000). **NOT** the dimensions of the media pads.
